

# NEW LOCATION, NEW CLINICS, SAME GREAT DENTAL CARE

# WE'RE MOVING IN JULY 2014

Our clinics are relocating to our new campus at 155 Fifth Street in downtown San Francisco in July 2014. Benefits to patients include:

- **Convenient Location** — Clinics will be just 1 ½ blocks from Powell Street BART/Muni and right next to the Fifth and Mission Parking Garage. The location is close to bike lanes, Caltrain, highways and ferries.
- **Improved Patient Comfort** — We'll have comfortable new dental chairs, light-filled clinics, pleasant interiors and smaller-scale waiting lobbies that more closely resemble private dental clinics.
- **High-Tech Approach** — We'll continue using the latest clinical technology, including digital x-rays, digital impressions and electronic medical records.
- **Commitment to Quality Care** — Our students, faculty and staff will remain committed to providing excellent care, now in a brand new facility!

All appointments for existing patients will continue to be held at the 2155 Webster Street location until July 2014.

**Questions about our move? Ask your student dentist, resident, faculty member or clinic staff member.**
